

**COR Certification – One Name, One Standard!**

Designed to assist companies in developing, implementing and maintaining an effective safety and health program, COR™ Certification and Small Employer COR™ Certification are the **highest distinction available** in the construction industry - nationally recognized as the ultimate distinction for construction companies!

CSAM is the **Authority Having Jurisdiction** to grant COR™ Certification in the province of Manitoba – servicing industrial; commercial; institutional and residential construction.

In achieving this national safety program accreditation in Manitoba, CSAM works to ensure that the COR™ standards are achieved and maintained. Don't put yourself at risk – ask to see a Letter of Good Standing or a COR™ Certificate from CSAM.

CSAM is funded completely by the building contractors in the province who contribute to the "400 Group" of the Workers Compensation Board of Manitoba (WCB). Any contractor who contributes to this group automatically holds Regular Member status.

To learn more about becoming COR™ Certified through the Construction Safety Association of Manitoba, or to view the current list of CSAM COR™ Certified companies, please visit our website: [www.constructionsafety.ca](http://www.constructionsafety.ca).

**CSO – THE BEST OF THE BEST!!!**

Congratulations to the newest group of Construction Safety Officers in the Westman area! The Construction Safety Association of Manitoba appreciates your continued effort in striving towards safety excellence! Great Job!!

Left to Right: Brent Johnston, Chris Inkster, Warren Gray. Missing: Jo Cooper, Greg Suidy
