## 40115 LANDSCAPING

This Classification continues to show significant growth in payroll year over year currently showing \$64.4M of Actual Payroll for 2021, up from \$58M the previous year.

Landscaping was recently moved to the 150% Risk Category given their overall claims costs over the past 4 years. As such, the majority of the approximately 400 employers would have received a rate increase.

Approximately 26% of the above payroll is safety certified. Severe Injuries dropped slightly to 20 in 2021 of which 5 of these took place in a safety certified work environment.

We refer you to the cover page to identify the top (3) drivers of Severe Injuries in the Landscaping Industry over the past 5 years. Given that Severe Injuries amount to more than 80% of claims costs they should continue to be the primary focus of any initiatives going forward.
