40104 Installing Metal Products

Installing Metal Products is one of the smallest levied classifications with Actual Payroll of approximately $31 M. 50% of the payroll is safety certified.

In 2025, the classification incurred increases in both Severe and Time Loss Injuries from an all time low the previous year. The classification was beginning to trend towards a lower risk category 250%. We will see if this slight increase will end the trend.

Please refer to the cover page to identify the top 3 drivers of Severe Injuries in the classification.
